The Original Steam Carpet Cleaning Establishment,

147 BANK STREET, NEW YORK. (Formerly 138 &144.)

A complete success, of eight years' trial, with new improvements. Economy, Neatness and Dispatch! Old Carpets made to look nearly as good as new. It is a well-known fact that Carpets cannot be properly cleaned by hand process, but by this improved method of cleaning Carpets by Machinery they are thoroughly and uniformly beaten and brushed throughout the entire length and breadth, thus removing all of the Dust and Moths without injury to the finest fabric.

W. H. JORDAN, Proprietor, 147 Bank Street, New York.

Branch Establishment, 1356 Broadway, bet. 36th and 37th sts.

☞ Carpets called for and returned, without regard to weather. Cartage free.

MITCHELL & BROTHER.

This Machine is a newly-constructed one, entirely different and far *superior* to any heretofore in use; it does the work *much better*,

WITH PERFECT SAFETY,

and in the shortest possible time.

No judicious person would ever permit their fine Carpets to be cleaned upon the *open lots*, did they but once see them cleaned by this Machine. Therefore persons wishing to have their *Carpets carefully and properly cleaned*, WITHIN DOORS, from dust and vermin, and RETURNED

THE SAME DAY,

Are cordially requested to send their orders by post, or otherwise.

Our Wagons will call for and deliver the Carpets as may be directed.

Hotel-keepers, Public Halls and Churches, are particularly invited to have their Carpets cleaned by this Machinery.

THE NEW YORK STEAM CARPET BEATING CO.,

105 West 32d Street, between 6th and 7th Avenues.

Their advantages over all others are

1st.—No injury to the finest fabric, the beaters being flexible whips—not hard, unyielding sticks—and always applied on the back, not on the face side.

2d.—They throughly free the Carpet from dust, beating all parts uniformly.

3d.—They effectually expel all vermin.

4th.—Economy. Carpets entirely freed from dust and grit wear much longer than those from which they are but partially removed.

5th.—The work can be done in all kinds of weather, and at all seasons of the year.

We are now prepared to execute all orders promptly.

HAND AND HORSE POWER PRESSES,

FOR PACKING HAY, COTTON, HIDES, HAIR, HEMP, RAGS, WOOL, &c.

These Machines combine superior finish, strength and durability, and no other press compares with them for convenience of shipping. They are more extensively used both at home and abroad, and more economical, and give better satisfaction than any others in the market. And we respectfully invite all those who want presses of any description, to send for our Catalogue, containing cuts, prices, &c., and for any other information desired.

The American Hay and Cotton Press Company,

OFFICE, 193 *BROADWAY*,

NEW YORK,

RESPECTFULLY call the attention of all parties interested in the Pressing or Compressing of Hay, Cotton, Wool, Hemp, Hops, Rags, or any article required to be baled for transportation, storage or consumption, to the Portable and Stationary Presses manufactured by them under "Gove's Patent," at Jersey City, corner of Grove and North Third Streets. This Press is simple in its construction, and the most powerful yet invented; the power is obtained by a peculiar combination of parallel levers, and dispenses entirely the use of toggle-joints, screws, cog-wheels, beaters or rollers. It can be operated by hand, horse, water, or steam power. One horse can in two minutes press Hay or Cotton 30 lbs. to the cubic foot, and compress the same to 40 lbs. a cubic foot in a quarter of a minute, the bales being of the most desirable shape for handling.

Positively no other Press can approach it for power, combined with rapidity of work, and durability. It will last a lifetime, the working parts being iron, and not liable to get out of order. Parties interested will find it advantageous to examine and test this press before purchasing elsewhere. For Circulars, address the Company. Office, 193 *Broadway*.

WHICH HAVE FOR MORE THAN A QUARTER OF A CENTURY BEEN EXTENSIVELY used by the fair sex of this country, and the circle of whose popularity has been constantly growing wider and wider, cannot be dispensed with by any lady who desires to be as beautiful as nature intended she should be.

His ITALIAN MEDICATED SOAP is the most efficient agent known for clearing and purifying the complexion. It infallibly removes tan, freckles, pimples, sallowness, ringworm, wrinkles, chafes, tetter, morphew or any other deformity of the skin.

His POUDRES SUBTILES instantaneously eradicate superfluous hair from any part of the frame.

His LIQUID HAIR DYE possesses the singular property of changing light, gray, or red hair to the most magnificent black or brown.

His ORIENTAL CREAM imparts a softness, whiteness and brilliancy to the complexion, making it beautiful beyond compare. All these articles have triumphantly stood the test of time, and their superior merit is thus placed entirely beyond question. This is to certify that I have examined "Wilson's Patent Air Circulating Corpse Preserver," while in practical operation, and have no hesitation in pronouncing it a most useful, valuable and wonderful invention. The body was, to my personal knowledge, successfully preserved for about one month without change. I examined it on three or four occasions at intervals apart. *The countenance was fresh and natural, with even a flush upon it.* It had all the appearance of a person asleep or in a trance.

CHAS. J. BUSHNELL,
413 *Fourth Avenue.*

NEW YORK, Oct. 8th, 1863.

J. C. RAPPLEYEA,
SEXTON
OF THE
CHURCH OF THE TRANSFIGURATION,
OFFICE, 414 FOURTH AVENUE,
NEW YORK.
PATENTED NOV. 13, 1863.

From early time there has been a desire to preserve the natural appearance of those we have loved, *loved after death.* Different methods have been resorted to in ancient and modern times to accomplish this object. As some of these are too expensive for persons in moderate circumstances, I think "WILSON'S Patent Air Circulating Corpse Preserver" BY FAR THE BEST I HAVE SEEN WHERE ICE IS USED AS THE MEANS. I have carefully examined it, containing the body of a female completely frozen. There was nothing in the least of disagreeable odor from the body, which had been placed in it for about twenty days. There appeared to be no moisture about the body or box. The circulation of dry and cold air are its merits.

V. MOTT, M. D., *No.* 1 *Gramercy Park.*

NEW YORK, Sept. 28th, 1863.

NEW YORK, October 10th, 1863.

I have this afternoon witnessed the opening of one of "Wilson's Air Circulating Corpse Preservers," in which the body of a robust female was placed on the 10th of September last. *The body was in perfect preservation, apparently unchanged, and without the least trace of decomposition. The clothing was dry and pure as when put on.*

As a matter of convenience and economy, this invention commends itself; while on account of the superior manner in which the desired end is accomplished—viz., preserving unchanged the dead for an indefinite period, without injury or disarrangement of the burial habiliments—it must soon become a necessity, and supersede temporary embalming, ice coffins, and air-tight burial cases.

WILSON'S

STREET AND AVENUE DIRECTORY

OF THE

CITY OF NEW YORK.

(CORRECTED MAY 1, 1863.)

Entered, according to Act of Congress, in the year 1863, by H. WILSON and JOHN F. TROW, in the Clerk's Office of the District Court of the United States for the Southern District of New York.

EXPLANATION.

If you wish to find the location of any dwelling-house or store,—for instance, No. 80 **ALLEN** Street,—on consulting the Street Directory (*see* **ALLEN**) you will observe that 68 Allen is on the right hand of that street and on the corner of Grand, and 86 Allen is on the right-hand corner of Broome; hence the desired number, 80 Allen, will be on the right-hand side of Allen Street, between Grand and Broome.

Or suppose you are going up Broadway and wish to take a cross street, so as to call at 236 Hudson Street, on examination (*see* **HUDSON**) of the corner numbers in Hudson Street, you will observe that 230 Hudson is on the corner of Broome; hence by passing from Broadway through Broome Street to Hudson, you are near to the desired number, 236.

NOTE.—Such of the streets as are divided into East and West, will be found in this work under E. and W.

These Ranges have, for neatness, durability, and economy, not as yet been surpassed by any article of the kind. The external appearance of them is neat; are cast of the

BEST AMERICAN IRON;

the plates most exposed to the extreme heat are made extra heavy; the Oven Doors are made to swing, and not liable to break, as drop doors; having a long circulation of heat around each oven, they bake equal to a brick oven, require but a small quantity of fuel, and are therefore not so apt to get out of repair.

IMPROVED PORTABLE & STATIONARY

STEAM ENGINES,

Manufactured by T. F. ROWLAND,

CONTINENTAL WORKS, Greenpoint, Brooklyn.

The advantages claimed for these engines consist in their extreme simplicity, combined with their general effectiveness and the great strength of their working parts, rendering them convenient for transportation, easily erected and operated, very powerful, and less liable to get out of order or break from rough usage, than engines of ordinary construction. These engines are so arranged as to run with equal facility in either direction, being readily reversed by simply moving a lever on the back of the steam chest—a feature very valuable in artesian well boring, enabling the withdrawal of the tools, etc., by steam, instead of hand power. Each engine is complete within itself, having heater, governor, pump, pipes, etc., in perfect order and ready for steam, and are thoroughly tested before leaving the works.

Engines of eight, ten, and twelve horse power constantly on hand and in process of construction, and can be delivered for shipment at short notice.

Engines of any variety or size built upon special order.

THE
MASON & HAMLIN CABINET ORGANS,

In Cases of Rosewood, Carved Rosewood, Ebony, engraved and gilt; Plain Black Walnut, Carved Black Walnut, Dappled Walnut, Plain Oak, Carved Oak, &c.

These instruments are evidently destined to become as fashionable for private use, and even more extensively used, than the Piano-Forte. Their capacity for both secular and sacred music, the purity and richness of their tones, the great variety of which they are capable, and their elegance as pieces of furniture are securing their rapid introduction in the drawing-rooms of the best musical circles, while the low prices at which some of the styles in plain cases are afforded, adapt them to the widest use.

THE CABINET ORGAN bears the same relation to the Harmonium or Melodeon, which the modern Piano-Forte bears to the *Spinnet* of olden times. Its volume and beauty of tone, and the artistic effects of which it is capable, have attracted to it an amount and degree of attention and favor from musical connoisseurs which have not before been given to any instrument of this class.

Among those who have publicly recognized the sterling qualities of the MASON & HAMLIN CABINET ORGANS, and who pronounce them SUPERIOR TO EVERY OTHER INSTRUMENT of their class in the world, are a large portion of the most eminent organists, pianists and musicians in the country.

"It is the universal opinion of the musical profession," says *The New York Tribune*, "that Messrs. Mason & Hamlin have succeeded in making a better small instrument than any other of the organ kind, that no such mechanical work of the kind can be found in Europe."

"These instruments represent the highest accomplishments of industry in this department," says *The Boston Advertiser*, adding, "this is not only our opinion, but the *unanimous* verdict of the organists."

"It is," writes Dr. Prime of *The New York Observer*, "a glorious instrument for the temple service, so readily secured as to be available for any congregation, and so effective as to meet the desires of the most refined and fastidious."

Mr. Gottschalk, the celebrated pianist, declares it "worthy the high praise it has received, and sure to find its way into every household of taste and refinement which can possibly afford its moderate expense."

The manufacturers respectfully invite musical professors and amateurs to examine these instruments and form their own judgment respecting them. Those who are not cognizant of the progress which Mason & Hamlin have recently made in this class of instruments, cannot but be interested in such an examination, especially of the larger styles of Cabinet Organs; and those who have been prejudiced against all such instruments, will be likely to have such prejudices removed.

Among those who have kindly expressed their high appreciation of the MASON & HAMLIN CABINET ORGANS, and publicly declared them THE BEST INSTRUMENTS OF THEIR CLASS IN THE WORLD, are such well-known organists and artists of Boston and New York as BERGE, BRAUN, BANCROFT, BRUCE, BUTLER, CUTLER, DAVIS, EISFELDT, EICHBERG, FRADEL, FRIES, GOLDBECK, GOTTSCHALK, GOEHRING, HELLER, HILL, KREISSMAN, LANG, LEONHARD, MAGRATH, WILLIAM MASON, MAREIZEK, MILLS, MOSENTHAL, MORGAN, MEISEL, PAINE, PARKER, RYAN, SANDERSON, SCHMITZ, STOEPEL, STRAKOSCH, SCHULTZE, THOMAS, TIMM, TUCKERMAN, WELS, WOLFSOHN, WHITING, WILLCOX, WEBB, ZUNDEL, ZERRAHN, together with hundreds of others in other principal cities, including a large portion of the most distinguished musicians of the whole country.

CAUTION TO PURCHASERS. The MASON & HAMLIN CABINET ORGANS derive their superiority not alone from greater excellence of material and workmanship, but also in a measure from the employment of peculiarities of construction which, being patented, cannot be used by other makers. Every instrument made by Mason & Hamlin, bears upon its name board the words, in full, "MASON & HAMLIN CABINET ORGAN."

Circulars with full particulars and lists of styles and prices (which vary from $110 to $1,200 each), sent free.
